

STONE PANEL

by CUPA GROUP

STONEPANEL™ IS THE ONLY NATURAL STONE PANEL
GUARANTEED AND CERTIFIED FOR OUTDOOR USE

CUPASTONE

The experts in Natural Stone

STONEPANEL™ is the most efficient, safe, aesthetic and the highest quality constructive solution that can be used for any type of natural stone cladding. **STONEPANEL™** provides the following advantages to any project

+ MORE EFFICIENT

- Simple and quick installation: **10 times faster** than traditional masonry (placing rate average 20m²/day).
- More profitable: virtually non-existent product waste. Natural Stone products are **more durable** than other cladding materials.
- Stonepanel™ installation requires no skilled labor or machinery.

+ SAFER

- The incorporated mechanical anchor of STONEPANEL™, made of stainless steel, **enables the installation of natural stone panel on surfaces higher than two meters.**
- Strong and uniform cement base ensures adherence and allows piece cutting without risk of detachment.

+ HIGH QUALITY

- Manufacturing processes are continually monitored by the R&D Department of CUPA GROUP.
- A great selection of natural stone by the experts of CUPASTONE .
- **Special pieces are available**, such as corners (solid, straight end, double end or for windows), coverings and other complementary solutions.

+ MORE AESTHETIC

- 'S'-shaped to avoid visible joints, in order to enhance the external look of any project.
- A wide range of natural stone panels with different colors and finishes.
- Beauty and exclusiveness of the natural stone: **each piece is unique.**

STONEPANEL™
