CUPA STONE has always been recognized for the finest selection of natural stone products. Our experts personally select the materials that are offered to our customers. Over the years we have learned how to communicate with stone in order to see what it has to show us. Our strong relationships with the finest stone quarries, built through many years of cooperation, help us to offer the best quality.

CUPA STONE manufacturing plants are strategically located close to the International Port of Vigo, that guarantees the interconnection of the worldwide sea traffic. The company’s continuous effort to grow makes possible to respond requests worldwide. Currently we export to more than 60 countries.

CUPA STONE has always been pioneering the sawing process of granite in Spain, since our origins back to the 20’s. The perfect balance between experience and innovation has been the engine of our history, always showing a deep respect for the natural stone with its unique features.

CUPA STONE proficiency also deals with the mastering of the different techniques and mechanical processes that enhance the natural stone. Therefore, our customers can benefit from our knowhow to choose the best finishes over more than sixty granite references.

Committed and responsible: CUPA STONE is strongly committed to achieving the highest standards of environmental performance by actively working to minimize the impact of our operations. We profoundly acknowledge that our role is making a difference today for a better tomorrow.
**BLANCO ALPES**
Creamy white medium-grained compact and homogeneous granite. It shows pale grey quartz with coarse grained size.

**FINISHES**
- Honed
- Polished
- Shot

**APPLICATIONS**
- Interior
- Exterior
- Projects

**TECHNICAL INFORMATION**
- Specific weight: 2,650 Kg/m³
- Compressive strength: 147 MPa
- Bending strength: 10.4 MPa
- Water absorption: 0.3%
- Origin: Spain

---

**BLANCO PERLA**
Greyish homogeneous white granite with creamy tones. Versatile material of medium grain size.

**FINISHES**
- Honed
- Polished
- Flamed
- Leather
- Aged

**APPLICATIONS**
- Interior
- Exterior
- Projects

**TECHNICAL INFORMATION**
- Specific weight: 2,650 Kg/m³
- Compressive strength: 150 MPa
- Bending strength: 11.9 MPa
- Water absorption: 0.3%
- Origin: Spain

---

**GRAN PERLA**
White and grey granite with a medium level of variation. Its consistent pattern of flakes mimic the shape of a beautiful bouquet of flowers in black and white.

**FINISHES**
- Honed
- Polished
- Flamed
- Leather
- Aged

**APPLICATIONS**
- Interior
- Exterior
- Projects

**TECHNICAL INFORMATION**
- Specific weight: 2,610 Kg/m³
- Compressive strength: 147 MPa
- Bending strength: 12.7 MPa
- Water absorption: 0.3%
- Origin: Spain
AMARILLO ALPES
Yellowish medium-grained with an heterogeneous tone. During the polishing process, an epoxy resin is applied to the surface of the slab to fill in any natural pits, small cracks or fissures that may exist in the stone. This does not affect the durability, maintenance or beauty of the slab.

FINISHES
• Honed
• Polished
• Flamed
• Leather
• Aged

TECHNICAL INFORMATION
• Specific weight: 2,610 Kg/m³
• Compressive strength: 127 Mpa
• Bending strength: 15.8 Mpa
• Water absorption: 0.3%
• Origin: Spain

CREMA JULIA
Quite popular medium-grained light pink granite with black and white background. Adaptable to any style.

FINISHES
• Honed
• Polished
• Shot
• Aged

APLICATIONS
• Interior
• Exterior
• Projects

TECHNICAL INFORMATION
• Specific weight: 2,640 Kg/m³
• Compressive strength: 150 Mpa
• Bending strength: -
• Water absorption: 0.3%
• Origin: Spain

CREAM CARAMEL
Creamy colored medium-grained granite, also known as Mohave Cream. Versatile and homogeneous, adaptable to any project.

FINISHES
• Honed
• Polished
• Flamed
• Leather
• Aged

APLICATIONS

**FINISHES**
- Honed
- Polished
- Flamed
- Leather
- Aged
AZUL NOCHE
Azul Noche is a dark gray and blue hard granite showing some black and white shades forming waving cloudy pattern. This granite of medium to gross size grain is widely used for decorative items due to its beautiful color.

FINISHES
- Honed
- Polished
- Shot
- Aged

APLICATIONS
- Interior
- Exterior
- Projects

TECHNICAL INFORMATION
- Specific weight: 2,720 Kg/m³
- Compressive strength: 169 MPa
- Bending strength: 14.4 MPa
- Water absorption: 0.1%
- Origin: Spain

BLUE PEARL
Blue colored homogenous granite composed of silver and bluish labradorites. It is distinguished by large steel-blue feldspar crystals.

FINISHES
- Honed
- Polished
- Aged

TECHNICAL INFORMATION
- Specific weight: 2,720 Kg/m³
- Compressive strength: 233 MPa
- Bending strength: 17.5 MPa
- Water absorption: 0.04%
- Origin: Norway

EMERALD PEARL
Homogenous granite with dark blue colored crystals combined with black tones in the background. It is popular for countertop and typically used for interior floors.

FINISHES
- Honed
- Polished
- Flamed
- Leather
- Aged

TECHNICAL INFORMATION
- Specific weight: 2,700 Kg/m³
- Compressive strength: 185 MPa
- Bending strength: 11.5 MPa
- Water absorption: 0.14%
- Origin: Norway
**BALTIC BROWN**

Intense brown thick-grained with distinctive circular texture. Compact stone that exhibits what is called “irregular” fracture.

**FINISHES**
- Honed
- Polished
- Flamed
- Leather
- Aged

**APLICATIONS**
- Interior
- Exterior
- Projects

**TECHNICAL INFORMATION**
- Specific weight: 2,680 Kg/m³
- Compressive strength: 162 MPa
- Bending strength: 9.7 MPa
- Water absorption: 0.1%
- Origin: Finland

**ANTIQUE BROWN**

Also known as Cohiba Brown, it is a dark brown medium-grained granite with a crystalline appearance. Its elegance is created by its mirror-like shines that light up its surface with iridescent reflections. A warm, natural appearance is obtained in the leather finish.

**FINISHES**
- Honed
- Polished
- Leather

**APLICATIONS**
- Interior
- Exterior
- Projects

**TECHNICAL INFORMATION**
- Specific weight: 2,700 Kg/m³
- Compressive strength: 229 Mpa
- Bending strength: 16.1 Mpa
- Water absorption: 0.1%
- Origin: Angola

**IVORY BROWN**

Creamy granite with reddish background and black and grey speckles. Its richness in essential colors as well as its calm and array of tones provides this granite certain uniqueness among other similar granites. It is perfect for both interior and exterior appliances creating a stylish design.

**FINISHES**
- Honed
- Polished
- Leather

**APLICATIONS**
- Interior
- Exterior
- Projects

**TECHNICAL INFORMATION**
- Specific weight: 2,650 Kg/m³
- Compressive strength: 117 MPa
- Bending strength: 11 Mpa
- Water absorption: 0.15%
- Origin: India
ZIMBABWE BLACK
Deep black colored fine-grained granite. Zimbabwe Black has bright shines due to its quartz minerals, providing a vivid luminosity to its surface. Elegant and sophisticated spots may be created with this stone.

**TECHNICAL INFORMATION**
- Specific weight: 3.130 Kg/m³
- Compressive strength: 282 MPa
- Bending strength: 33.6 MPa
- Water absorption: 0.1%
- Origin: Zimbabwe

**FINISHES**
- Honed
- Polished
- Leather
- Aged

**APLICATIONS**
- Interior
- Exterior
- Projects

IMPALA BLACK
Dark grey colored medium-grained granite. Compact stone that exhibits what is called and “irregular” fracture. Its quartz transparent crystals gives the granite lightness and brilliancy.

**TECHNICAL INFORMATION**
- Specific weight: 2.930 Kg/m³
- Compressive strength: 229 MPa
- Bending strength: 16.1 MPa
- Water absorption: 0.1%
- Origin: South Africa

**FINISHES**
- Honed
- Polished
- Leather

**APLICATIONS**
- Interior
- Exterior
- Projects

DAKAR BLACK
Also known as Angola Black, it is a black colored medium-grained granite with a crystalline appearance. Its distinguishing shiny dark labradorites, makes it a unique granite. The leather finish gives the granite a sophisticated appearance.

**TECHNICAL INFORMATION**
- Specific weight: 2.840 Kg/m³
- Compressive strength: 201 MPa
- Bending strength: 19.5MPa
- Water absorption: 0.1%
- Origin: Angola

**FINISHES**
- Honed

RIVER WHITE
Creamy granite with linear veins with a white background. The veins can range in tone from blue/grey to burgundy from one block to another, providing each stone with a unique appearance.

FINISHES
• Honed
• Polished
• Leather

APLICATIONS
• Interior
• Exterior

TECHNICAL INFORMATION
• Specific weight: 2,700 kg/m³
• Compressive strength: 188 MPa
• Bending strength: 13.37 MPa
• Water absorption: 0.22%
• Origin: India

BLANCO POTIGUAR
Exotic granite with great movement composed by white, blue and grey quartz and great feldspar crystals.

FINISHES
• Honed
• Polished
• Leather

APLICATIONS
• Interior
• Exterior

TECHNICAL INFORMATION
• Specific weight: 2,612 kg/m³
• Compressive strength: 70 MPa
• Bending strength: 11.8 MPa
• Water absorption: 0.42%
• Origin: Brazil
Since 1928 CUPA STONE produces, extracts, designs, shapes and distributes natural stone for both exterior and interior applications as well as projects. All our stone solutions in facades, driveways, swimming pools, kitchen, bathroom, roads and public gardens seduce the professionals of the market. Architects are engaged to our stone tiles, slabs, Stonepanel®, gravel, pavers from an array of more than 500 products offered by CUPA STONE. Our products are available through a network of 22 branches in Europe, each center has over 1,000 m² of permanent exhibition open to the public. Thanks to the mastery of the entire production chain from extraction to distribution, CUPA STONE is able to meet the needs of the most demanding customers. CUPA STONE is the natural stone division of CUPA GROUP, the leading Spanish multinational company in Roofing Slate industry worldwide.

CUPA STONE, THE COMPANY

CUPA STONE social responsibility mainly relies on its commitment to environmental sustainability. Therefore, we develop renewable energy projects worldwide and we focus our efforts in the development of new, more efficient, responsible and sustainable construction solutions. Our main aim is to keep CUPA STONE as a leading company in the sector by minimizing the environmental impact.

CUPA STONE, THE QUALITY

From selection to distribution, CUPA STONE is engaged in a constant search for quality by improving processes and services. We firmly believe in the benefits of natural stone as a high quality product, competitive and sustainable. All natural stone products we offer undergo constant internal and external (independent) quality tests following UNE and European standards. Furthermore, our own team perform quality control inspections on-site and our geotechnical engineers make sure we offer products of the highest quality possible to our customers.

CUPA STONE, THE SUSTAINABILITY
